MENTAL HEALTH & WELLNESS WORKSHOPS

Offered at no cost to those who live or work in Milwaukee County

Mental Health First Aid for Adults provides adults with the tools to assist other adults who may be developing a mental health problem or experiencing a crisis. This training covers:

- Common signs and symptoms of mental illness and substance abuse
- How to interact with a person in crisis
- How to connect that person with help
- How to administer naloxone in the event of an opioid overdose

Mental Health First Aid for Youth is intended for those who regularly interact with youth ages 12-18. Topics covered include:

- Anxiety
- Depression
- Substance use
- Disorders in which psychosis may occur
- Disruptive behavior disorders (including AD/HD)
- Eating disorders

Mindful Gratitude teaches participants how to put the art of appreciation into practice. Presented by author Christel B. Wendelberger, this 1-hour evidence-based workshop explores research that shows that mindfulness & gratitude can help us cope with difficulties & improve mental, emotional & physical health.

10 Tips to Reduce Conflict: Practical Verbal De-Escalation Techniques explores foundational information on how to reduce the level of conflict through self-knowledge, understand how past experiences influence current behavior, and offer 10 tips of de-escalation. This 2-hour workshop is aimed toward individuals who encounter conflict in the workplace, at home, or in the community, whether you are a parent or educator, work in the helping professionals, or otherwise work with the public in potentially tense situations.

QPR Question, Persuade, Refer Suicide Prevention Gatekeeper Training offers hope through positive action when facing situations that could include the possibility of suicide. In this 2-hour session, QPR-trained gatekeepers learn how to identify certain warning signs and use intervention measures and follow-up methods when dealing with potentially suicidal peers. The goal is to refer the person being helped to the appropriate professional care.

Trauma and Substance Use covers trauma's effect on the brain in the short term & long term, provides a space to discuss risk factors & substance use disorders & helps participants develop their strategy for intervention methods for a specific population. This 2-hour interactive, evidence-based workshop is aimed toward community members & professionals who want to learn more about the importance of prevention & self-care as healers & as trauma survivors.

IMPACT

Dial 2-1-1 or text your ZIP Code to TXT-211 [898-211]

6737 W. Washington St. #2225, Milwaukee

<https://www.impactinc.org/impact-211/>

IMPACT 2-1-1 is a central access point for people in need. During times of personal crisis or community disaster, the free, confidential helpline and online resource directory make it easy for residents to get connected to information and assistance to emergency shelter, community programs, and drug and alcohol treatment services.

For nearly 60 years, IMPACT has been providing free and confidential alcohol and drug consultation and referral services to help people who are concerned about themselves or a loved one. Because IMPACT does not provide treatment services, and is not affiliated with any health care provider, referrals are based solely on the needs of the individual.

IMPACT's website includes a Milwaukee County Safety Net Directory, and a Resource Directory with more than 7,000 community programs in English and Spanish.

Priority Populations: Low-income, vulnerable Milwaukee County residents needing help with basic needs; those seeking help with substance use disorders

Walker's Point Youth and Family Center

24-Hour Crisis Line and Main Number: 414-647-8200

732 S. 21st St., Milwaukee

<https://walkerspoint.org/>

The mission of Walker's Point Youth & Family Center is to meet the needs of runaway, homeless, and other troubled youth and their families from Milwaukee's diverse communities by providing services to empower youth, help them resolve personal and family problems, strengthen family relationships, and support safe and stable homes.

We are a private, non-profit corporation which has been providing help to Milwaukee area youth and families since 1976. We offer shelter, counseling, educational and other services to help young people resolve their problems and strengthen family relationships.

Teens who come to us for help are usually doing so because they are having serious problems at home. Many leave home because of reported physical or sexual abuse or neglect. Many of these teens also come from alcohol or drug addicted families.

Our Runaway & Teen Crisis Program provides temporary shelter and crisis to youth in crisis ages 11-17 who are experiencing family or other problems. Counseling is available by appointment or walk-in to youth just needing to talk. This program provides a safe and legal alternative to the streets for runaway and homeless youth, as well as offering a neutral space where problem-solving can take place for both the youth and the family. We help youth to decide upon a future course of action which is positive and in their best interest.

The INSIGHTS Transitional and Supportive Housing Program is for older homeless youth who require long-term transitional housing and an intensive range of supportive services aimed at preparing them for self-sufficiency and housing permanency.

Priority Populations: youth ages 11 and up, especially those who are experiencing homelessness, housing instability, or family problems

Behrens Psychotherapy Services

262-689-0688

2321 E. Capitol Dr., Milwaukee

<https://behrenspsychotherapyservices.com/>

Services include:

- Individual Adult Psychotherapy: Client meets individually with therapist on a regular basis, typically weekly, to discuss issues client desires to change.
- Child/Adolescent Psychotherapy: Child/Adolescent and therapist meet one-on-one on a regular basis, typically weekly, to discuss issues client or client's parent desires to change. Child/adolescent psychotherapy often involves the client's parents and other important people in the client's life.
- Family Psychotherapy: Family psychotherapy can include all members of the family or only certain members. Family and therapist meet on a regular basis to resolve issues that are affecting the family unit and environment.
- Psychological Assessment, Diagnosis, and Education: Therapist will assess client, diagnose client, and educate client about their mental disorder.
- In-home Psychotherapy: Psychotherapy in the client's home is available through some insurance companies and through private pay. In-home psychotherapy is useful for clients that are non-compliant, don't have transportation, disabled, or children and adolescents that need to be seen in their own environment. This is a unique service that most clinicians do not provide.
- Consultation Services: If you are interested in opening your own private practice and need guidance, advice, or help, Jenna Behrens is familiar in how to start a successful mental health practice from the ground up and has helped others through this process.
- Telehealth Services: Jenna can provide services to almost anyone (few restrictions do apply) in Wisconsin via video, telephone, email or texting.

1333 College Ave., South Milwaukee; 2814 S. 108th St., West Allis

<https://communitymedicalservices.org/>

Community Medical Services provides medication-assisted treatment (MAT) for individuals with opioid use disorder. MAT uses a holistic approach to treat the “whole-patient” with the use of FDA-approved medications, counseling, and behavioral therapy. Medication helps to alleviate withdrawal and cravings, allowing the patient to focus on positive behavior changes. There are 3 FDA-approved medications to treat opioid use disorder, methadone, buprenorphine, and naltrexone. The goal of MAT is to find the lowest possible dose of a medication that will relieve withdrawal symptoms and cravings for a 24-hour period. The medications used in MAT, at a stable dose, do not have any adverse effects on an individual’s ability to work, drive, care for their children, or otherwise live a healthy life.

Priority Populations: Individuals with opioid use disorder

Mission Statement: To provide accessible, quality primary and related health care services to Milwaukee residents, with our continuing emphasis on medically-underserved families and individuals.

Vision Statement: To be the most accessible, effective and efficient community-based health care provider specifically serving medically-underserved families and individuals.

Milwaukee Health Services, Inc. is a private, non-profit Federally–Qualified Community Health Center, (FQHC). MHSI provides a comprehensive range of primary medical, dental, podiatry, and behavioral healthcare, in addition to a limited number of specialty services. With experience serving low-income populations since 1989. MHSI is committed to removing barriers and improving health outcomes to promote quality of life and reduce disparities among racial and ethnic communities.

MHSI is governed by a Board of Directors, a majority of who are actual users of services provided by the health centers. Our providers are highly qualified. MHSI is pleased to have recruited the most compassionate providers to serve in our community. We encourage patients and their families to be actively involved in their healthcare, working as a team with their medical provider will ensure the best health outcome.

MHSI supports programs that serve the needs of our communities holistically. Treating the disease is not enough. We must expand in a way that will enable us to teach, prevent, employ, build, influence and prosper in a way that helps to alter community dynamics. In essence become a true community health center of first choice for our patients, families and communities.

<https://communityadvocates.net/what-we-do/milwaukee-womens-center/what-we-do/substance-abuse-treatment.html>

Positive Options for Women Entering Recovery (POWER) is a mental health/dual diagnosis program serving women, including pregnant women, who are struggling with substance use disorder. This program helps women to achieve and maintain abstinence from alcohol and drugs, understand and recover from trauma, domestic violence, and mental health issues, and improve their social and economic well-being.

The POWER program does the following:

- Draws on the expertise of professionals from the fields of medicine, social services, child care, and substance use disorder treatment
- Centers around the client, so that each treatment plan is built to meet each woman's individual needs and circumstances
- Addresses crisis issues first, then long-term goals
- Encourages each woman to set her own goals and build upon her strengths
- Ensures that a woman's care continues across all areas of her life

This program is offered at no cost, and can include free child care and transportation when available.

Priority Population: Women with a substance use disorder

Outreach Community Health Centers Behavioral Health Services

Main Number: 414-727-6320; Access Clinic: 414-257-7665

210 W. Capitol Drive, Milwaukee

<https://www.ochc-milw.org/>

Outreach Community Health Centers is fortunate to provide behavioral treatment in an outpatient setting as well as comprehensive clinical case management to support the whole person. Our staff works as a team to provide culturally sensitive and person-centered care and includes psychiatrists, psychologists, nurse practitioners, and psychotherapists. Prior to the pandemic, the Behavioral Health Clinic added increased psychiatry services, which uniquely prepared us to serve patients during this difficult time. Because of these added services, quick access to psychiatric care is now available for those in need. Services include: youth, family and adult services; individual therapy; group therapy; multidimensional family therapy; substance use intensive outpatient program; psychiatric evaluation; and medication management. Community-based services include community support program (CSP) and comprehensive community services (CCS).

The Milwaukee County Behavioral Health Division's (BHD) Access Clinic East, provided by Outreach Community Health Centers, allows BHD team members to quickly connect people with the culturally competent care they need within their own community. Services include mental health and substance use assessment, medication evaluation, peer support services, counseling and/or referrals to appropriate outpatient clinics, and access to additional community programs. Access Clinic East serves both insured and uninsured Milwaukee County residents. No patients will be denied services due to inability to pay. Those with insurance should consult their insurance provider and/or primary care physician, however BHD provides bridge services to Milwaukee County residents until they are able to get an appointment with their long-term provider. The clinic will be open from 8 a.m. to 4 p.m. Monday through Friday. New patients should arrive by 2 p.m. and will be seen in the order of their arrival. Learn more at www.Milwaukee.gov/BHD.

Priority Populations: Outreach Community Health Centers, Inc. offers a full range of primary and behavioral health services to all persons in need of care, homeless and housed, insured and uninsured.

Project Ujima works to stop the cycle of violent crimes through crisis intervention and case management, social and emotional support, youth development and mentoring, mental health, and medical services. We address the needs of youth victims of violence who come to Children's Wisconsin's emergency room by:

- Providing treatment to help the victim recover physically and emotionally
- Directing victims to community organizations that might help in their long-term recovery

Project Ujima also provides services to adult crime victims, including:

- Home visits with a crime victim specialist
- Assistance with crime victim compensation forms
- Victim and court advocacy
- Emergency assistance
- Enrichment activities for the family
- Project Ujima serves adult victims in Milwaukee County of any crime type, including:
 - Property crime
 - Physical assault
 - Rape/sexual assault
 - Domestic violence
 - Homicide

Project Ujima provides a support group for adult survivors of homicide. When a person loses a loved one to homicide, many questions arise. Project Ujima works with participants to understand the grieving process, identify resources, and provides support to family members on their road to recovery.

Sixteenth Street Community Health Center

Milwaukee: 414-672-1353; Waukesha: 262-408-2530

Main site: 1032 S. Cesar E. Chavez Drive, Milwaukee

<https://sschc.org/>

We are at the heart of our healthy communities, Sixteenth Street Community Health Centers has proudly cared for the south side of Milwaukee and Waukesha for over 50 years. We provide the highest quality medical, behavioral health, and substance use care to every person who walks through our doors. But what separates our care is the deep understanding of social determinants of health and the years of development of programming to address these factors, both inside and beyond our clinic walls. It has been woven into the Sixteenth Street experience from day one.

We meet people where they live, work, learn, and play through proactive social services screening in our clinics, specialized diabetes and asthma programming, obesity intervention and prevention, and environmental programming to create resident-directed impact in the built and natural environment where our patients live, work, learn, and play.

Through full-service bilingual clinics, a behavioral health clinic, a satellite geriatric clinic, and six in-school clinics, Sixteenth Street cares for nearly 43,000 primarily low-income, Latino or diverse individuals each year. At Sixteenth Street, we value and respect all people, protecting the right to wellness, and never turning anyone away who needs our care.

Behavioral health services include outpatient behavioral health and psychiatry, child and adolescent day treatment, ADHD testing, and substance use services. They are available at the Chavez, Parkway, Layton, and National Avenue sites in Milwaukee (414-672-1353 to make an appointment) and at the Waukesha location (262-408-2530).

United Community Center Substance Use Treatment Program

414-643-8530 or info@unitedcc.org

1028 S. 9th St., Milwaukee

<https://www.unitedcc.org/community-services/substance-use-treatment-program/>

The Human Services Department at the United Community Center was founded in 1979 in response to increasing demands for bilingual and culturally competent programs for Hispanics and other minorities with alcohol and drug use problems. UCC is the only bilingual/bicultural substance use disorder (SUD) treatment program in Wisconsin that provides the entire continuum of care for SUD services for Spanish speakers. It's also the only public sector SUD treatment program in Milwaukee with a complete continuum of care and trauma-informed dual-diagnosis-capable mental health outpatient for both men and women. Residential treatment programs include those for men, women, and pregnant and post-partum women, as well as day treatment, outpatient treatment, and walk-in assessments.

UCC is also the only treatment site that serves as a Central Intake Unit (walk-in assessments) for Milwaukee County's public sector substance use delivery system.

We want to empower and educate our clients while supporting them so they have the ability to change their situations. We want to aid our clients in regaining the capability to take care of themselves and others to build up their confidence and happiness on a physical and emotional level.

All treatment programs are certified by the state of Wisconsin for substance use disorder (SUD) treatment. UCC is also a network service provider for the Milwaukee County AODA Bureau and various insurance HMO carriers.

Priority Populations: Adults who speak English or Spanish

Wisconsin Community Services (WCS) Recovery Services

414-343-3569

3732 W. Wisconsin Ave., Suite 310, Milwaukee

https://www.wiscs.org/programs/behavioral/recovery_services/

WCS is a provider of Wisconsin Supports Everyone's Recovery Choice (Wiser Choice) services. Programming provides people seeking drug and alcohol treatment with vouchers to pay for a range of appropriate community-based services. WCS programs include the Central Intake Unit (CIU) and the Recovery Support Coordination Unit (RSC).

- **WCS Access Point:** WCS operates the central intake unit to screen and admit people into AODA treatment in Milwaukee County. The Central Intake Unit is mobile and can travel to correctional institutions and other sites to meet clients.
- **WCS Recovery Support Coordination Unit:** The program provides wraparound type services that help to address all issues a person is facing instead of trying to treat the alcohol or drug problem in isolation. A recovery support coordinator creates a plan that provides referrals to and coordination of services for people involved in AODA treatment.
- **Prisoner Reintegration Program (PRP):** The PRP provides pre- and post-release services for individuals returning to the City of Milwaukee after a period of confinement in the Milwaukee County House of Corrections. Before release, participants work with staff to identify their needs and develop an effective release plan. Upon release, participants meet with their assigned Mentor on a weekly basis to ensure that the participant's post-release needs are being addressed. Whenever possible, participants are connected with services that are available in the community and Wiser Choice Network.

Priority Populations: Anyone seeking help with drug and alcohol use, including justice-involved individuals

At Comprehensive Wellness, we offer various therapeutic services that are tailored to fit your needs. Services include individual, family, group, and couples therapy, as well as enrichment.

"I'm Lauren Todd, a Licensed Professional Counselor and the Owner of Comprehensive Wellness. For those who need it, I received my Masters Degree from Mount Mary College (now University). My Bachelors was obtained initially at Xavier University of Louisiana and concluded at Mount Mary after Hurricane Katrina in 2005, but that's a story for another day. As a therapist, I have worked in diverse settings including Correctional Facilities (with both youth and adults), Vocational Counseling with individuals who have a disability needing employment, and in individuals with disabilities' homes. My approach to each person who chooses to work with me is one of collaboration. I am here to help YOU on YOUR journey! I will use practical solutions, appropriate humor and active listening during sessions.

"Comprehensive Wellness was birthed by my personal realization that wellness has many variables! If a part of us isn't well, it can transfer to other areas without us being aware! We then can know "something is off" but not be able to pinpoint it-or we wrongly diagnose ourselves! It is important that we address all aspects of our lives in order to be considered well."

Different Shades of Healing, LLC

262-320-7886

6830 W. Villard Ave., Suite 190, Milwaukee

<https://www.dsohmke.com/>

Here at Different Shades of Healing, we realize that there is no one way to heal. Each individual may heal and process life experiences differently from each other. Different Shades of Healing is focused on providing interventions that are specific to the individual(s) and their symptoms.

The mission of Different Shades of Healing is to use an urban and cultural perspective to provide mental health and mentoring services.

Our vision is to introduce individuals, couples, families or groups to the various ways of healing in a therapeutic setting. We are dedicated to serve the many shades of races, culture, backgrounds, and religions in our community. The stigma of mental health weighs deeply in minority families. For this reason, Different Shades of Healing, will also focus on providing mental health services that are culturally and socially responsive in the contexts of racial and ethnic minorities.

Priority populations: Racial and ethnic minorities

Milwaukee Women's Center – Nevermore Batterers Treatment

414-828-5190

Various locations

<https://communityadvocates.net/what-we-do/milwaukee-womens-center/what-we-do/batterers-treatment.html>

Nevermore Batterers Treatment is an educational, support group-based program aiming to help male batterers understand and take responsibility for their violent behavior. Nevermore provides tools and knowledge, to change abusive and controlling behaviors and to prevent domestic violence in intimate partner and/or family relationships.

Following intake, participants are assigned to a group which has rolling admission; is offered during the day, evening, and weekend hours; and has a capacity of ten people.

The program's curriculum is delivered by trained / certified facilitators over a mandatory minimum of 24 two-hour sessions focusing on four significant areas:

- 1) education and awareness regarding the dynamics of domestic violence;
- 2) healing and rehabilitation;
- 3) non-violent communication / conflict resolution skills; and
- 4) development of an abuse prevention plan.

Facilitators monitor each participant, and clients who do not display increased knowledge, acceptance that the abuse was their fault, and/or who lack positive changes in attitudes and behaviors are required to participate in additional sessions, typically between six to ten more. The program also provides a 24-Hour Crisis Line and individual sessions for participants.

Priority Population: Men with a history of violent and nonviolent abuse

New Insights LLC / Jamal Cunningham, M.Ed. Psy.D.

414-214-9655; info@newinsightsllc.com

1845 N. Farwell Ave., Suite 303B, Milwaukee

<http://www.newinsightsllc.com/about/jamal-cunningham-m-ed-psy-d/>

Dr. Cunningham specializes in providing therapeutic and psychological assessment services for children and adolescents with an array of presenting issues including poor self-esteem, behavioral and emotional dysregulation, disorganized attachment styles, mood disorders, trauma, and identity development. He also completed comprehensive training in providing identity affirming therapeutic services to LGBTQ youth and adults at Chicago's LGBTQ Mental Health Training Consortium at Center on Halsted. He has worked in various settings including community mental health agencies, schools,

client's homes, community centers, an inpatient hospital, and has served as a member on community crisis teams.

He views his clients through a biopsychosocial, trauma-informed lens and utilizes an integrative approach that consists of both psychodynamic (attachment-based) and family systems (structural and multi-systemic) frameworks. Knowing that youth may not have the vocabulary to express the complex thoughts and feelings they are experiencing, Dr. Cunningham uses a variety of interventions to meet youth where they are, including, but not limited to, play therapy and sand tray therapy. For parents/caregivers, it can be difficult to figure out where to start in helping their child. To help foster communication and assist caregivers in supporting their children, Dr. Cunningham provides psycho-educational opportunities using Adlerian Parenting and Positive Discipline approaches.

Priority Population: New Insights, LLC is dedicated to assisting adolescents, college students, and adults who have been impacted by life's emotional struggles and other behavioral health concerns.

We address the needs of youth victims of violence who come to Children's Wisconsin's emergency room by:

- Providing treatment to help the victim recover physically and emotionally
- Directing victims to community organizations that might help in their long-term recovery

Project Ujima also provides services to adult crime victims, including:

- Home visits with a crime victim specialist
- Assistance with crime victim compensation forms
- Victim and court advocacy
- Emergency assistance
- Enrichment activities for the family

Project Ujima serves adult victims in Milwaukee County of any crime type, including:

- Property crime
- Physical assault
- Rape/sexual assault
- Domestic violence
- Homicide

Project Ujima provides a support group for adult survivors of homicide. When a person loses a loved one to homicide, many questions arise. Project Ujima works with participants to understand the grieving process, identify resources, and provides support to family members on their road to recovery.

Priority Populations: Youth and adults who have survived violent crime.

Wisconsin Community Services (WCS) Recovery Services

414-343-3569

3732 W. Wisconsin Ave., Suite 310, Milwaukee

https://www.wiscs.org/programs/behavioral/recovery_services/

WCS is a provider of Wisconsin Supports Everyone's Recovery Choice (Wiser Choice) services. Programming provides people seeking drug and alcohol treatment with vouchers to pay for a range of appropriate community-based services. WCS programs include the Central Intake Unit (CIU) and the Recovery Support Coordination Unit (RSC).

- **WCS Access Point:** WCS operates the central intake unit to screen and admit people into AODA treatment in Milwaukee County. The Central Intake Unit is mobile and can travel to correctional institutions and other sites to meet clients.
- **WCS Recovery Support Coordination Unit:** The program provides wraparound type services that help to address all issues a person is facing instead of trying to treat the alcohol or drug problem in isolation. A recovery support coordinator creates a plan that provides referrals to and coordination of services for people involved in AODA treatment.
- **Prisoner Reintegration Program (PRP):** The PRP provides pre- and post-release services for individuals returning to the City of Milwaukee after a period of confinement in the Milwaukee County House of Corrections. Before release, participants work with staff to identify their needs and develop an effective release plan. Upon release, participants meet with their assigned Mentor on a weekly basis to ensure that the participant's post-release needs are being addressed. Whenever possible, participants are connected with services that are available in the community and Wiser Choice Network.

Priority Populations: Anyone seeking help with drug and alcohol use, including justice-involved individuals

New Insights LLC / Jamal Cunningham, M.Ed. Psy.D.

414-214-9655; info@newinsightsllc.com

1845 N. Farwell Ave., Suite 303B, Milwaukee

<http://www.newinsightsllc.com/about/jamal-cunningham-m-ed-psy-d/>

Dr. Cunningham specializes in providing therapeutic and psychological assessment services for children and adolescents with an array of presenting issues including poor self-esteem, behavioral and emotional dysregulation, disorganized attachment styles, mood disorders, trauma, and identity development. He also completed comprehensive training in providing identity affirming therapeutic services to LGBTQ youth and adults at Chicago's LGBTQ Mental Health Training Consortium at Center on Halsted. He has worked in various settings including community mental health agencies, schools, client's homes, community centers, an inpatient hospital, and has served as a member on community crisis teams.

He views his clients through a biopsychosocial, trauma-informed lens and utilizes an integrative approach that consists of both psychodynamic (attachment-based) and family systems (structural and multi-systemic) frameworks. Knowing that youth may not have the vocabulary to express the complex thoughts and feelings they are experiencing, Dr. Cunningham uses a variety of interventions to meet youth where they are, including, but not limited to, play therapy and sand tray therapy. For parents/caregivers, it can be difficult to figure out where to start in helping their child. To help foster communication and assist caregivers in supporting their children, Dr.

Cunningham provides psycho-educational opportunities using Adlerian Parenting and Positive Discipline approaches.

Priority Population: New Insights, LLC is dedicated to assisting adolescents, college students, and adults who have been impacted by life's emotional struggles and other behavioral health concerns.

835 N. 23rd St., Milwaukee

<https://www.transformationsservices.info/index.html>

TransformationServices, Inc. uses a holistic approach to Substance Abuse and Mental Health Counseling, incorporating a healthier physical, emotional, and spiritual lifestyle. Since 1995, the Healing Garden component of our treatment program has had available an outdoor alternative, allowing clients to learn and practice effective stress management techniques. A walking track seen from our roof, and a naturalistic location for therapy offers a calm oasis in a busy urban locale. This provides a setting for the development of effective wellness strategies that until now for the client have been self-destructive choices (alcohol, drugs, cigarettes, food etc.). We now offer the Healing Garden for both staff and students.

Dr. Ingrid D. Hicks is a Licensed Clinical Psychologist as well as a Consultant, Grant Writer, and Author specializing in Minority Education and Curriculum Development. Her company TransformationServices, Inc. (TSI) is a Milwaukee Certified Small Business Enterprise, as well as a Wisconsin Minority Business Enterprise.

Diverse & Resilient

414-390-0444

2439 N. Holton St., Milwaukee

<https://www.diverseandresilient.org/>

At Diverse & Resilient, we see a future where lesbian, gay, bisexual, transgender, and queer people in Wisconsin thrive, living healthy, satisfying lives in safe, supportive communities.

Our long-term objective is to eliminate health disparities between LGBTQ people and the general population, as measured by commonly accepted indicators of physical and mental health. These health disparities occur in four areas:

- Mental Health
- Sexual Health
- Partner & Community Violence
- Substance Use

The key social determinant of these health disparities is anti-LGBTQ discrimination. To that end, our work also includes efforts to increase acceptance, end discrimination, and build leadership skills and confidence among LGBTQ people.

Priority Populations: Lesbian, gay, bisexual, transgender, and queer people.

Milwaukee Women's Center / A Division of Community Advocates

24-Hour Domestic Violence Crisis Line: 414-671-6140

Multiple locations

<https://communityadvocates.net/what-we-do/milwaukee-womens-center/overview.html>

Our mission is to provide innovative, culturally competent holistic care that will empower men, women, and children to live safe, independent, and healthy lives.

Founded in 1980, the Milwaukee Women's Center provides comprehensive services and treatment for women, men, and children whose lives have been affected by domestic violence, addiction, mental health issues, homelessness, and poverty. In June 2007, to ensure the continuation of critical domestic violence resources in Milwaukee County, the Milwaukee Women's Center became a Division of Community Advocates.

In 2020, 1,133 individuals received services and support through the Milwaukee Women's Center Division.

- Our Domestic Violence Emergency Shelter provided comprehensive domestic violence services to 137 adults and 106 children.
- 119 low-income, homeless adults and 179 children received shelter and assistance through our Family Support Center Emergency Shelter.
- Our Older Abused Women's Program helped 106 women ages 50 and older who were victimized by their intimate partners or adult children. More than 90% of program participants prepared a safety plan and many participated in weekly support groups.
- The Nevermore Batterers Treatment Program educated 182 men, 143 (79%) of whom completed the six-month program.

- 51 men learned how to become better dads and role models through their participation in the New Pathways for Fathers and Families Program. Forty (78%) successfully completed the program.
- Our intensive alcohol- or drug-abuse treatment program, the POWER Program, helped 35 women.
- Our bilingual Family Intervention Program served 39 African American and Latino/a men and women and their families.
- The Bottomless Closet provided free clothing and job readiness assistance to 127 women and 52 men who were seeking employment

Priority Populations: Individuals and families who have survived abuse in their relationships and are seeking help in English or Spanish

414-671-6140

Various locations

<https://communityadvocates.net/what-we-do/milwaukee-womens-center/what-we-do/older-abused-womens-program.html>

The goal of the Milwaukee Women's Center's Older Abused Women's Program is to reduce and eliminate violence in the lives of women age 50 and older who have been victimized by their intimate partners or adult children.

Our free-of-charge program is unique in Milwaukee County because we reach out to women as young as 50 for care specifically tailored to the needs of older women, including women who have been victimized by an adult child. We are experienced in helping older women who have been emotionally, physically, financially, or intimately abused by a spouse, dating partner, or adult child.

Priority Population: Women ages 50+ who have been victimized by an intimate partner or adult child

Milwaukee Women's Center – Nevermore Batterers Treatment

414-828-5190

Various locations

<https://communityadvocates.net/what-we-do/milwaukee-womens-center/what-we-do/batterers-treatment.html>

Nevermore Batterers Treatment is an educational, support group-based program aiming to help male batterers understand and take responsibility for their violent behavior. Nevermore provides tools and knowledge, to change abusive and controlling behaviors and to prevent domestic violence in intimate partner and/or family relationships.

Following intake, participants are assigned to a group which has rolling admission; is offered during the day, evening, and weekend hours; and has a capacity of ten people.

The program's curriculum is delivered by trained / certified facilitators over a mandatory minimum of 24 two-hour sessions focusing on four significant areas:

- 1) education and awareness regarding the dynamics of domestic violence;
- 2) healing and rehabilitation;

- 3) non-violent communication / conflict resolution skills; and
- 4) development of an abuse prevention plan.

Facilitators monitor each participant, and clients who do not display increased knowledge, acceptance that the abuse was their fault, and/or who lack positive changes in attitudes and behaviors are required to participate in additional sessions, typically between six to ten more. The program also provides a 24-Hour Crisis Line and individual sessions for participants.

Priority Population: Men with a history of violent and nonviolent abuse

Project Ujima

414-266-2557

<https://childrenswi.org/childrens-and-the-community/families-and-clients/family-support-services/violence-prevention-counseling>

Project Ujima works to stop the cycle of violent crimes through crisis intervention and case management, social and emotional support, youth development and mentoring, mental health, and medical services. We address the needs of youth victims of violence who come to Children's Wisconsin's emergency room by:

- Providing treatment to help the victim recover physically and emotionally
- Directing victims to community organizations that might help in their long-term recovery

Project Ujima also provides services to adult crime victims, including:

- Home visits with a crime victim specialist
- Assistance with crime victim compensation forms
- Victim and court advocacy
- Emergency assistance
- Enrichment activities for the family
- Project Ujima serves adult victims in Milwaukee County of any crime type, including:
 - Property crime
 - Physical assault
 - Rape/sexual assault

- Domestic violence
- Homicide

Project Ujima provides a support group for adult survivors of homicide. When a person loses a loved one to homicide, many questions arise. Project Ujima works with participants to understand the grieving process, identify resources, and provides support to family members on their road to recovery.

Priority Populations: Youth and adults who have survived violent crime.

Community Advocates – Milwaukee Fatherhood FIRE Program

414-737-6510

4900 W. Fond du Lac Ave., Milwaukee

<https://communityadvocates.net/what-we-do/milwaukee-fatherhood-fire.html>

Community Advocates recognizes that kids need strong, independent, and caring moms *and* dads. That's why we've partnered with Milwaukee County in their Milwaukee Fatherhood FIRE program, which promotes fathers as *Family-focused, Interconnected, Resilient, and Essential* in the lives of their children, families, community and society. This program connects fathers with other fathers with similar goals working to improve their lives. Over a period of several weeks, these fathers will work together learning as a team how to develop positive, healthy habits that align with the FIRE qualities. Core topics include healthy relationships, responsible parenting, and economic stability.

Fatherhood FIRE serves biological fathers, expectant and adoptive fathers, stepfathers, or a person who is serving as a father figure for a dependent child or young adult up to 24 years old who lives in Milwaukee County.

Upon completion of the Fatherhood FIRE program, Milwaukee County Child Support Services will generously offer you a 50% reduction in state interest OR, if there is no state interest, a 50% reduction in state owed birth expenses.

Milwaukee Fatherhood-FIRE is a project of Milwaukee County Child Support Services. Funding for this project is provided by the Administration for Children and Families (ACF) of the United States Department of Health and Human Services (HHS), Grant #90ZJ0010. The content is solely the responsibility of the Milwaukee County Fatherhood-FIRE program and does not necessarily represent the official views of ACF. This program is offered to eligible persons regardless of race, gender, disability, age, or religious affiliation.

Priority Populations: Fathers, expectant fathers, and father figures for a dependent child or young adult up to 24 years old who lives in Milwaukee County

New Insights LLC / Jamal Cunningham, M.Ed. Psy.D.

414-214-9655; info@newinsightsllc.com

1845 N. Farwell Ave., Suite 303B, Milwaukee

<http://www.newinsightsllc.com/about/jamal-cunningham-m-ed-psy-d/>

Dr. Cunningham specializes in providing therapeutic and psychological assessment services for children and adolescents with an array of presenting issues including poor self-esteem, behavioral and emotional dysregulation, disorganized attachment styles, mood disorders, trauma, and identity development. He also completed comprehensive training in providing identity affirming therapeutic services to LGBTQ youth and adults at Chicago's LGBTQ Mental Health Training Consortium at Center on Halsted. He has worked in various settings including community mental health agencies, schools, client's homes, community centers, an inpatient hospital, and has served as a member on community crisis teams.

He views his clients through a biopsychosocial, trauma-informed lens and utilizes an integrative approach that consists of both psychodynamic (attachment-based) and family systems (structural and multi-systemic) frameworks. Knowing that youth may not have the vocabulary to express the complex thoughts and feelings they are experiencing, Dr. Cunningham uses a variety of interventions to meet youth where they are, including, but not limited to, play therapy and sand tray therapy. For parents/caregivers, it can be difficult to figure out where to start in helping their child. To help foster communication and assist caregivers in supporting their children, Dr. Cunningham provides psycho-educational opportunities using Adlerian Parenting and Positive Discipline approaches.

Priority Population: New Insights, LLC is dedicated to assisting adolescents, college students, and adults who have been impacted by life's emotional struggles and other behavioral health concerns.

Penfield Children's Center Behavior Clinic

414-344-7676; Free phone consultation: 414-345-6351

833 N. 26th St., Milwaukee

<https://penfieldchildren.org/>

The Behavior Clinic at Penfield Children's Center provides treatment services to children 5 years of age and younger who have behavior and emotional challenges. A partnership between Penfield and Marquette University, the Behavior Clinic is the only program of its kind in Milwaukee offering family-centered, in-home treatment sessions that address issues very early in a child's development to help prevent serious mental health issues from developing in the future. For many young children under the age of six, behavior issues are overlooked or parents are told their children will "grow out of it." While some challenging behaviors are typical during the toddler and preschool years, others can indicate a more serious condition. Intakes and home visits are scheduled Monday – Friday between the hours of 8 AM and 4 PM, based on the family's schedule. Call for a FREE phone consultation: 414-345-6351.

The Behavior Clinic works with children who have:

- Persistent temper tantrums that last for several hours.
- Aggression issues that result in self-harm or harm to others.
- Sleeping and eating problems.
- Problems at school or daycare.
- Sadness, nightmares, or difficulties with relationships after experiencing or witnessing a traumatic event (domestic violence, child abuse or neglect, removal from parent).

Priority Population: Children 5 years and younger

Project Ujima

414-266-2557

<https://childrenswi.org/childrens-and-the-community/families-and-clients/family-support-services/violence-prevention-counseling>

Project Ujima works to stop the cycle of violent crimes through crisis intervention and case management, social and emotional support, youth development and mentoring, mental health, and medical services. We address the needs of youth victims of violence who come to Children's

Wisconsin's emergency room by:

- Providing treatment to help the victim recover physically and emotionally
- Directing victims to community organizations that might help in their long-term recovery

Project Ujima also provides services to adult crime victims, including:

- Home visits with a crime victim specialist
- Assistance with crime victim compensation forms
- Victim and court advocacy
- Emergency assistance
- Enrichment activities for the family

Project Ujima serves adult victims in Milwaukee County of any crime type, including:

- Property crime
- Physical assault
- Rape/sexual assault
- Domestic violence
- Homicide

Project Ujima provides a support group for adult survivors of homicide. When a person loses a loved one to homicide, many questions arise. Project Ujima works with participants to understand the grieving process, identify resources, and provides support to family members on their road to recovery.

Priority Populations: Youth and adults who have survived violent crime.

Sixteenth Street Community Health Center

Milwaukee: 414-672-1353; Waukesha: 262-408-2530

Main site: 1032 S. Cesar E. Chavez Drive, Milwaukee

<https://sschc.org/>

We are at the heart of our healthy communities, Sixteenth Street Community Health Centers has proudly cared for the south side of Milwaukee and Waukesha for over 50 years. We provide the highest quality medical, behavioral health, and substance use care to every person who walks through our doors. But what separates our care is the deep understanding of social determinants of health and the years of development of programming to address these factors, both inside and beyond our clinic walls. It has been woven into the Sixteenth Street experience from day one.

We meet people where they live, work, learn, and play through proactive social services screening in our clinics, specialized diabetes and asthma programming, obesity intervention and prevention, and environmental programming to create resident-directed impact in the built and natural environment where our patients live, work, learn, and play.

Through full-service bilingual clinics, a behavioral health clinic, a satellite geriatric clinic, and six in-school clinics, Sixteenth Street cares for nearly 43,000 primarily low-income, Latino or diverse individuals each year. At Sixteenth Street, we value and respect all people, protecting the right to wellness, and never turning anyone away who needs our care.

Behavioral health services include outpatient behavioral health and psychiatry, child and adolescent day treatment, ADHD testing, and substance use services. They are available at the Chavez, Parkway, Layton, and National Avenue sites in Milwaukee (414-672-1353 to make an appointment) and at the Waukesha location (262-408-2530).

Walker's Point Youth and Family Center

24-Hour Crisis Line and Main Number: 414-647-8200

732 S. 21st St., Milwaukee

<https://walkerspoint.org/>

The mission of Walker's Point Youth & Family Center is to meet the needs of runaway, homeless, and other troubled youth and their families from Milwaukee's diverse communities by providing services to empower youth, help them resolve personal and family problems, strengthen family relationships, and support safe and stable homes.

We are a private, non-profit corporation which has been providing help to Milwaukee area youth and families since 1976. We offer shelter, counseling, educational and other services to help young people resolve their problems and strengthen family relationships.

Teens who come to us for help are usually doing so because they are having serious problems at home. Many leave home because of reported physical or sexual abuse or neglect. Many of these teens also come from alcohol or drug addicted families.

Our Runaway & Teen Crisis Program provides temporary shelter and crisis to youth in crisis ages 11-17 who are experiencing family or other problems. Counseling is available by appointment or walk-in to youth just needing to talk. This program provides a safe and legal alternative to the streets for runaway and homeless youth, as well as offering a neutral space where problem-solving can take

place for both the youth and the family. We help youth to decide upon a future course of action which is positive and in their best interest.

The INSIGHTS Transitional and Supportive Housing Program is for older homeless youth who require long-term transitional housing and an intensive range of supportive services aimed at preparing them for self-sufficiency and housing permanency.

Priority Populations: youth ages 11 and up, especially those who are experiencing homelessness, housing instability, or family problems

414-643-8530 or info@unitedcc.org

1028 S. 9th St., Milwaukee

<https://www.unitedcc.org/community-services/substance-use-treatment-program/>

The Human Services Department at the United Community Center was founded in 1979 in response to increasing demands for bilingual and culturally competent programs for Hispanics and other

minorities with alcohol and drug use problems. UCC is the only bilingual/bicultural substance use disorder (SUD) treatment program in Wisconsin that provides the entire continuum of care for SUD services for Spanish speakers. It's also the only public sector SUD treatment program in Milwaukee with a complete continuum of care and trauma-informed dual-diagnosis-capable mental health outpatient for both men and women. Residential treatment programs include those for men, women, and pregnant and post-partum women, as well as day treatment, outpatient treatment, and walk-in assessments.

UCC is also the only treatment site that serves as a Central Intake Unit (walk-in assessments) for Milwaukee County's public sector substance use delivery system.

We want to empower and educate our clients while supporting them so they have the ability to change their situations. We want to aid our clients in regaining the capability to take care of themselves and others to build up their confidence and happiness on a physical and emotional level.

All treatment programs are certified by the state of Wisconsin for substance use disorder (SUD) treatment. UCC is also a network service provider for the Milwaukee County AODA Bureau and various insurance HMO carriers.

Positive Options for Women Entering Recovery (POWER) is a mental health/dual diagnosis program serving women, including pregnant women, who are struggling with substance use disorder. This program helps women to achieve and maintain abstinence from alcohol and drugs, understand and recover from trauma, domestic violence, and mental health issues, and improve their social and economic well-being.

The POWER program does the following:

- Draws on the expertise of professionals from the fields of medicine, social services, child care, and substance use disorder treatment
- Centers around the client, so that each treatment plan is built to meet each woman's individual needs and circumstances

- Addresses crisis issues first, then long-term goals
- Encourages each woman to set her own goals and build upon her strengths
- Ensures that a woman's care continues across all areas of her life

This program is offered at no cost, and can include free child care and transportation when available.
