

MONTHLY REPORT OVERVIEW

APRIL 2022

The goal of these monthly reports is to showcase the work being done at the North Shore Health Department and to increase transparency with community leaders, partners, elected officials, and the public.

As we focus on COVID-19 recovery at NSHD, we are re-aligning our work with our department's four priority areas that were established prior to the start of the COVID-19 pandemic. This report highlights the work done in each of our four priority areas over the past month, as well as other important work and activities done by our department.

NSHD PRIORITY AREAS

Our department is guided by four priority areas that were identified in the last Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP) published in 2020.

MENTAL & EMOTIONAL WELLBEING
for a Healthy North Shore

SUBSTANCE-FREE LIVING for a Healthy North Shore

INJURY PREVENTION
ACROSS THE LIFESPAN
for a Healthy North Shore

PHYSICAL ACTIVITY and NUTRITION
for a Healthy North Shore

We have started our next CHA and CHIP in order to update these priority areas. The community priority survey will be starting this June to get input from North Shore residents on the most critical health issues and community needs.

UPDATES FROM THE HEALTH OFFICER

- ▶ Continued with Health Officer training and orientation
- ▶ Had several supervision meetings with NSHD staff, particularly to discuss their vision for the department
- ▶ Attended several Wisconsin Association of Local Health Departments and Boards (WALHDAB) meetings
- ▶ Attended the Intergovernmental Cooperation Council (ICC) meeting
- ▶ Shadowed NSHD staff, including accompanying our Environmental Health Sanitarian during restaurant inspections

MONTHLY REPORT

APRIL 2022

Provided nutrition education and resources to several clients

MONTHLY REPORT

APRIL 2022

COVID-19 RESPONSE

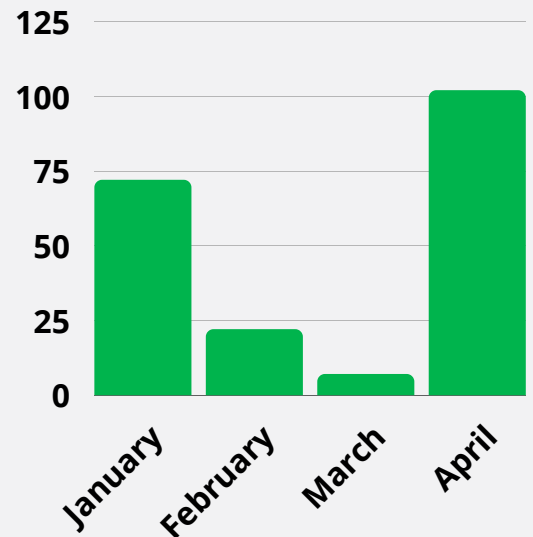

VACCINATIONS

Our department hosted three COVID-19 vaccination clinics between our Brown Deer and Shorewood offices in April. An additional two off-site clinics were held at senior living apartments. We administered 102 COVID-19 vaccines.

CASE FOLLOW-UP

Follow-up on positive COVID-19 cases is only done for those 0-18 and 65+ years at NSHD. This follow-up includes a phone call to assist with isolation and quarantine questions. In April 2022, we attempted follow-up for 199 cases 0-18 years and 64 cases for 65+ years.

COVID-19 Vaccines Administered at NSHD

COMMUNICABLE DISEASES (PROBABLE + CONFIRMED) CASES, PERCENTAGE

TUBERCULOSIS, LATENT <5 cases FOOD & WATER-BORNE 0, 0%

OTHER 7, 1.0%

STIs 25, 3.7%

COVID-19 244, 95.2%

ADDITIONAL COMMUNICABLE DISEASE FOLLOW-UP

- **7 ANIMAL BITES** requiring follow-up and quarantine for rabies prevention & control
- Perinatal Hepatitis B follow-up

North Shore Environmental Health Consortium

- Completed 50 inspections
- Issued 2 new licenses
- Prepared HealthSpace data system for license renewals
- Attended village board meetings to propose a change in fees
- Conducted four consults
- Approved one variance request

ADDITIONAL APRIL HIGHLIGHTS
