

North Shore Health Department Public Briefing

October 29th, 2020 as of 4:45 p.m.

Wisconsin Southeast Region Health Alert & Call to Action: Do Your Part, Stop the Spread

You have the power. Take action now. Do your part to stop the spread. The health departments across southeast Wisconsin urgently state that we have reached a critical level of the pandemic.

Southeastern Wisconsin is currently experiencing critically high levels of COVID-19 and significant spread in our communities. Your help is necessary to reduce the spread and to protect our families, our friends, and our community.

All residents who live and work in southeastern Wisconsin must continue to take personal responsibility to protect ourselves and our loved ones. Even though not all who test positive for COVID-19 experience a severe case of the virus, we all risk getting the virus and spreading it to others – maybe without realizing we’re sick. Taking extra precautions now will allow our schools to stay open, our businesses to remain operational, and it helps us all to protect our most vulnerable relatives and neighbors from the effects of COVID-19.

IF YOU TEST POSITIVE FOR COVID-19, YOU SHOULD NOTIFY YOUR CLOSE CONTACTS OF THEIR POTENTIAL EXPOSURE.

Due to the high number of new COVID-19 cases in the North Shore, we urge anyone that tests positive to notify their close contacts to help in our contact tracing efforts.

It is recommended that close contacts quarantine in their home for 14 days from the date of last exposure.

Visit our website for more information on contact notification.
