NSHD 2020 Flu Clinics: All clinics are by appointment only this year. Call 414-371-2980 to schedule an appointment.

[Brown Deer Clinic Dates](#) [Shorewood Clinic Dates](#)

Every year it is important to receive an influenza vaccine, but this season it is more crucial than ever as COVID-19 continues to be a concern within our communities. Influenza and COVID-19 are both contagious respiratory illnesses that are caused by different viruses and typically present with similar symptoms. Although there is currently no vaccine for COVID-19, influenza vaccines are available and are highly recommended as we approach this year's flu season. Receiving your flu shot can help to minimize the burden on healthcare systems that are devoting their resources to the COVID-19 response. Additionally, the preventive measures we are employing to protect ourselves from COVID-19 can also be effective in preventing exposure to influenza and preserving our healthcare systems, such as physical distancing, mask wearing and hand washing.
