

North Shore Health Department Public Briefing

November 12th, 2020 as of 4:00 p.m.

Holiday Guidance from WI DHS:

Holidays are often when family, friends, and neighbors come together to celebrate each other and share a meal. In order to stop the spread of COVID-19 and keep your friends and family safe, consider the following guidance for your celebrations. We continue to recommend avoiding gatherings with people you do not live with. Furthermore, travel increases your chance of getting and spreading the virus that causes COVID-19. If you must travel, be informed of the risks involved. Staying home and celebrating with those in your household is the best way to protect yourself and others. Visit [Wisconsin DHS](#) to learn more about DHS holiday guidance.

As COVID-19 continues, it may be possible that you or a member of your household tests positive. In order to prevent the spread within a shared household and protect those who are most vulnerable, follow some of these tips:

- **Provide a separate bedroom and bathroom** for sick person. If this is not possible, try to keep the sick person as far from other household members as possible – especially those who are most at risk
- **Have one person designated as the caregiver** (cleaning, bringing food, etc.) for the sick person – this household member should also limit contact with other household members as much as possible
- **Maintain at least a 6ft distance** between the sick person and other members of the household
- **If you need to share a bedroom with someone who is sick** – make sure the room as good air flow, maintain at least 6ft between beds, sleep head to toe, place a physical divider between beds
- **If you need to share a bathroom with someone who is sick** – the person who is sick should disinfect frequently touched surfaces. If this is not possible, the person who does the cleaning should use ventilating fans to increase air circulation and wait if possible before entering room to clean and disinfect or to use the bathroom
- The sick member of the household should not prepare food and should eat separately from the household members

COVID-19 Cases to Date

North Shore (Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood & Whitefish Bay) - as of November 12th Changes from 11/11. This data is also available on our [website](#).
