

North Shore Health Department Public Briefing

November 24th, 2020 as of 4:00 p.m.

Check out the COVID-19 Risk Assessment Planning Tool: <https://covid19risk.biosci.gatech.edu/>

The map shows the risk level of attending an event, given the event size and location. The risk level is the estimated chance (0-100%) that at least 1 COVID-19 positive individual will be present at an event in a county, given the size of the event. In Milwaukee County, the risk level is 41% for a gathering of 10 people, 53% for a gathering of 15 people, and 65% for a gathering of 20 people.

THANKSGIVING GUIDANCE

Safer Options for Celebrating:

- Enjoy a meal with just your household family members. Cook the meal together or try something new, like meal delivery or take out.
- Hold virtual celebrations with non-household family members.
- Make new traditions to express your thanks to your friends, family and community members, like sending cards or gifts to loved ones or donating to food pantries.
- Watch sports, events, or parades from home, and if you are Black Friday shopping, do it online.

If you gather with non-household members:

- Limit your contacts & avoid any non-essential outings in the days leading up to Thanksgiving.
- Wear a mask, keep your distance from others and increase the ventilation in the space you are gathering.
- Remember, the shorter the duration of the gathering, the lower the risk.
- Plan outdoor activities with a small group if the weather permits.

COVID-19 Cases to Date

North Shore (Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood & Whitefish Bay) - as of November 24th Changes from 11/23. This data is also available on our [website](#).
