

North Shore Health Department Public Briefing

November 25th, 2020 as of 3:00 p.m.

Check out the COVID-19 Risk Assessment Planning Tool: <https://covid19risk.biosci.gatech.edu/>

The map shows the risk level of attending an event, given the event size and location. The risk level is the estimated chance (0-100%) that at least 1 COVID-19 positive individual will be present at an event in a county, given the size of the event. In Milwaukee County, the risk level is 41% for a gathering of 10 people, 53% for a gathering of 15 people, and 65% for a gathering of 20 people.

THANKSGIVING GUIDANCE

Safer Options for Celebrating:

Enjoy a meal with just your household family members. Cook the meal together or try something new, like meal delivery or take out.

Hold virtual celebrations with non-household family members.

Make new traditions to express your thanks to your friends, family and community members, like sending cards or gifts to loved ones or donating to food pantries.

Watch sports, events, or parades from home, and if you are Black Friday shopping, do it online.

If you gather with non-household members:

Limit your contacts & avoid any non-essential outings in the days leading up to Thanksgiving.

Wear a mask, keep your distance from others and increase the ventilation in the space you are gathering.

Remember, the shorter the duration of the gathering, the lower the risk.

Plan outdoor activities with a small group if the weather permits.

COVID-19 Cases to Date

North Shore (Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood & Whitefish Bay) - as of November 25th Changes from 11/24. This data is also available on our [website](#).

THANK YOU, LONGTERM CARE WORKERS!

THANK YOU... FOR SHOWING UP... AND CARING. AND WASHING YOUR HANDS A THOUSAND TIMES A DAY. AND WEARING A MASK. AND FOR LOVING PEOPLE.

CNAS, DIETARY AIDES, HOUSEKEEPING STAFF... YOU MATTER.

"EVEN IF I AM NOT PROVIDING DIRECT CARE, I WASH MY HANDS EACH TIME I ENTER A NEW ROOM."
