

# North Shore Health Department Public Briefing

December 11<sup>th</sup>, 2020 as of 4:30 p.m.

## New COVID-19: Wisconsin Coronavirus Wastewater Monitoring Network

Monitoring wastewater is used for early detection of COVID-19 within a community. For people with COVID-19, the virus can be detected in their feces shortly after they are infected with the virus, even before they experience symptoms or if they are infected but asymptomatic. By testing wastewater, we can measure the amount of the virus and see whether the levels are increasing or decreasing. This can be an early warning sign of increasing COVID-19 cases within a community.

**Flu Prevention:** Wearing a mask, washing your hands, & getting a flu shot are 3 simple steps we can take to help reduce the spread of flu & help save medical resources needed to care for people with #COVID19. Find where the flu vaccine is available near you at [Find Vaccine - VaccineFinder](#).

## COVID-19 Cases to Date

**North Shore** (Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood & Whitefish Bay) - as of December 11<sup>th</sup>  
Changes from 12/10. This data is also available on our [website](#).

**3,695 Cumulative Confirmed Cases\* (+45)**

\*Confirmed with PCR test.

464 active cases (+6)

3,183 recovered cases (+38)

48 deaths (+1)

**187 Antigen Positives\*\* (+2)**

\*\*Positive with rapid-antigen test.

41 active antigen positives

146 recovered cases

### Cumulative Confirmed Cases by Community

Bayside	258
Brown Deer	808
Fox Point	321
Glendale	961
River Hills	95
Shorewood	607
Whitefish Bay	645

The antigen positives may be confirmed with a PCR test – if the PCR test is positive, they are added to the confirmed cases. If the PCR test is negative, they are no longer considered antigen positive.

**Milwaukee County** (as of December 11<sup>th</sup> – changes from 12/10)

**75,851 Cumulative Confirmed Cases (+648)**

388,735 negatives (+951)

810 deaths (+4)

**Wisconsin** (as of December 11<sup>th</sup> – changes reported by WI DHS)

**429,957 Cumulative Confirmed Cases (+3,858)**

50,264 active cases

2,231,765 negatives (+7,187)

3,991 deaths (+47)

19,020 ever hospitalized (+145) Percent ever hospitalized = 4.4%
