For information on the COVID-19 vaccine: <https://www.healthymke.com/>

North Shore Health Department received around 100 first dose vaccines for this week (2/1 to 2/5). This is about 17% of the total amount we requested. With the continued demand for vaccine from the 1A providers, we have already filled our appointments for the week of February 1st and will not be sending out a sign-up for open appointments. The reduced supply is a disappointment for our health department as we had hoped to begin our vaccine clinics for adults aged 65 years and older.
