

North Shore Health Department Public Briefing

April 19th, 2021

Wisconsin Vaccine Update: Through the continued hard work of vaccinators across the state, Wisconsin has administered more than 3.6 million doses statewide, with:

- 38.5% of Wisconsinites having received at least one dose.
- 25.8% of Wisconsin residents have completed the vaccine series.
- 71.2% of Wisconsin residents aged 65 and older have completed the vaccine series.

| River Hills | 122 |
| Shorewood | 871 |
| Whitefish Bay | 986 |

I received the Johnson & Johnson (Janssen) vaccine, what do I need to do?

- Understand that these severe events are incredibly rare.
- Monitor for the following symptoms up to three weeks after you vaccination: severe headache, abdominal pain, leg pain, or shortness of breath. Symptoms associated with these severe events have occurred six to 13 days after receiving the vaccine.
- If you develop any of these symptoms, contact your health care provider.
- Use the v-safe program to report your symptoms.
