

Public Briefing *from the*

NORTH SHORE HEALTH DEPARTMENT

June 11th, 2020 Update on COVID-19
(as of 3:00 p.m.)

The North Shore is currently in Phase B of our reopening plan: The gating criteria is being reevaluated and additional information will be provided tomorrow. We encourage you to monitor our website and our social media platforms for updates.

For all of the guidelines, see the [NSHD Phase B detailed guidelines](#) and the [chart](#) with each of the phases.

The Wisconsin Department of Health Services (DHS) released additional resources that employers can use to promote a safe environment for their employees and customers: These resources include signs to post at businesses and workplaces, as well as guidance for workers, businesses and employers on how to lower the risk of COVID-19 transmission.

Tracing	

If you are considering getting tested for COVID-19, visit the Wisconsin Department of Health Services website to for more information: <https://www.dhs.wisconsin.gov/covid-19/testing.htm>.

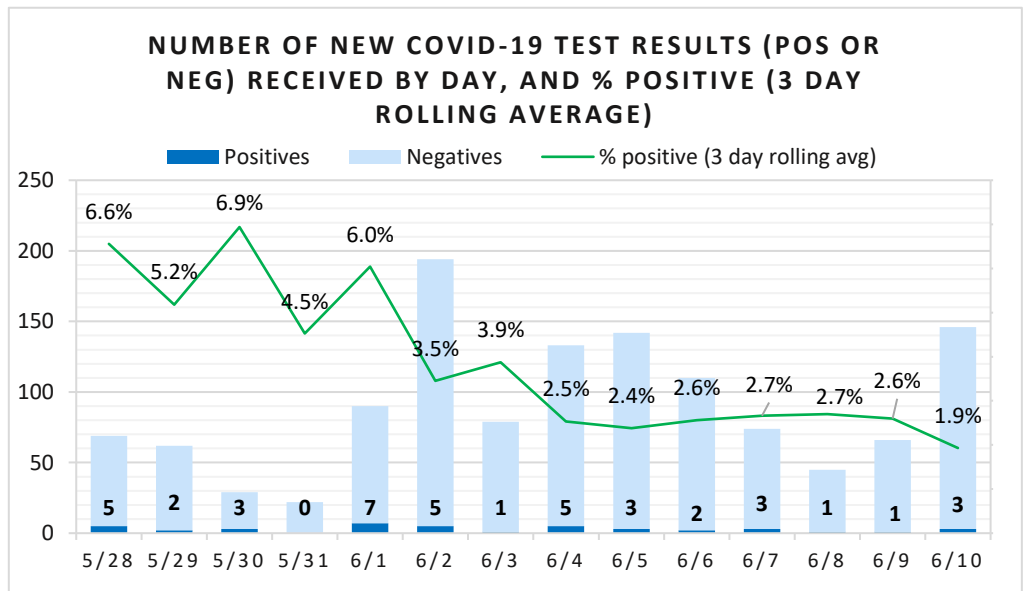

They have resources available to determine if you have symptoms of COVID-19 and assist you in finding a community testing site in your area. If you get tested for COVID-19, follow the instructions on this [flyer](#) on what to do while you wait for your test results. It is highly recommended you self-isolate and self-monitor for symptoms after getting tested and before you get your results. See more information on appropriate self-isolation [here](#).

Campgrounds at Wisconsin State Parks are now open:

The Wisconsin Department of Natural Resources (DNR) announced that camping is now available at WI State Parks starting June 10th. Reservations are required for all campsites and may be made [online](#) or by calling 1-888-947-2757. Property offices will remain closed and campers should head directly to their reserved campsite upon arrival and use the automated check-in system. The rules for WI State Park campgrounds can be found [here](#). Remember to practice physical distancing to the extent possible when visiting campgrounds.

This graph displays the total number of positive and negative test results received per day in the North Shore, as well as the percent of test results that were positive (3 day rolling average). A total of approximately 4,202 COVID-19 tests have been conducted in the North Shore as of 2:00 p.m. on June 11th. With a population of approximately 65,000 in the North Shore, this indicates that 6.5% of the North Shore population has been tested at this time.

This is a rapidly evolving situation and we encourage you to frequently monitor the [DHS website for updates](#), as well as the [NSHD website](#). Additional information on COVID-19 can be found on the [CDC website](#).
