

Public Briefing *from the*

NORTH SHORE HEALTH DEPARTMENT

June 18th, 2020 Update on COVID-19
(as of 4:00 p.m.)

The North Shore is currently in Phase C of the reopening plan as of Friday, June 12th: The gating criteria was reevaluated on June 18th and it was determined that the North Shore will remain in Phase C. The gating criteria will be reassessed after seven days making June 25th the next date.

North Shore businesses, organizations and residents should continue to follow the Phase C guidelines on our [website](#).

See the NSHD [Phase C detailed guidelines](#) and the [chart](#) with guidance for each of the phases.

Mass Gatherings Guidance: Under Phase C in the North Shore, it is highly recommended that both indoor and outdoor gatherings do not exceed 50 individuals. This includes, but is not limited to, events at private homes with non-household members; public gatherings such as parades, weddings, funerals, conferences, festivals, concerts, sporting events; and gatherings at public parks or other communal spaces. We remind everyone that with the expanded mass gathering limit, taking precautionary measures to reduce the risk of COVID-19 transmission is even more critical.

More guidance on mass gatherings from NSHD: [Click Here](#).

CDC events and mass gatherings guidance: [Click Here](#).

Additional recommendations from the CDC on deciding to go out: [Click Here](#).

**TO PARTICIPATE IN GATHERINGS
AS SAFELY AS POSSIBLE:**

- Maintain physical distancing of at least 6 feet between yourself and non-household members
- Wear a face mask
- Cover coughs and sneezes with a tissue
- Wash your hands frequently with soap and warm water or use hand sanitizer
- Consider only hosting or attending outdoor gatherings
- Avoid sharing items with others
- Clean and disinfect frequently used or shared surfaces

COVID-19 Cases to Date	
North Shore (includes Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood, Whitefish Bay - as of June 18 th , 2020) 250 Cumulative Confirmed Cases (+0) 23 active cases being managed and monitored (+0) 212 cases resolved - people have recovered and been removed from isolation by NSHD (+0) 14 deaths (+0) 1 transfer out of our jurisdiction (+0) 5,167 contacts and/or suspect cases we have triaged and processed

WI DHS recommendations for staying safe and keeping cool during the summer: As COVID-19 continues throughout the summer, places we typically go to get out of the summer heat and humidity like the library, mall or pool may be closed or unavailable. With the temperatures rising during the summer, it is important to keep cool. Here are some tips the DHS recommend for staying cool inside:

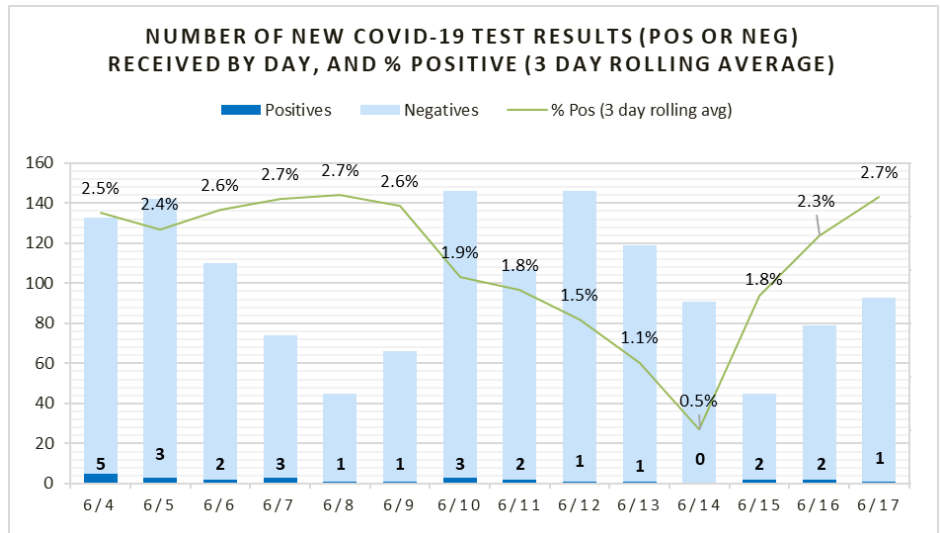

- Stay hydrated
- Keep curtains and shades shut
- Take cool baths or showers
- Use air conditioning if possible

Using air conditioning could increase electricity costs. The Wisconsin Home Energy Assistance Program (WHEAP) could help with these costs. More information can be found [here](#).

For more information on staying safe and cool during the summer, visit the [DHS website](#).

National Nursing Assistants Week: Governor Evers proclaimed June 18th-June 24th as National Nursing Assistants Week throughout the state. To all the nursing assistants in Wisconsin, we thank you for your hard work and commitment to providing quality patient care especially during this COVID-19 pandemic.

This graph displays the total number of positive and negative test results received per day in the North Shore, as well as the percent of test results that were positive (3 day rolling average). A total of approximately 4,903 COVID-19 tests have been conducted in the North Shore as of 2:00 p.m. on June 18th. With a population of approximately 65,000 in the North Shore, this indicates that 7.5% of the North Shore population has been tested at this time.

This is a rapidly evolving situation and we encourage you to frequently monitor the [DHS website for updates](#), as well as the [NSHD website](#). Additional information on COVID-19 can be found on the [CDC website](#).
