

Public Briefing *from the*

NORTH SHORE HEALTH DEPARTMENT

June 22nd, 2020 Update on COVID-19
(as of 4:00 p.m.)

The North Shore is currently in Phase C of the reopening plan: North Shore businesses, organizations and residents should continue to follow the Phase C guidelines on our [website](#).

See the NSHD [Phase C detailed guidelines](#) and the [chart](#) with guidance for each of the phases.

The Wisconsin Department of Public Instruction published [Education Forward](#) to guide school districts as they prepare for the 2020-21 school year:

The DPI guidance is to be adopted to fit the needs of each school system as they consider how to safely and effectively resume instruction. Schools should plan for changes throughout the next school year and be prepared to shift between in-person, physically distanced, and virtual learning depending on the current state of COVID-19 in the area.

The guidance includes the following resources:

- A School Health Services Infection Control and Mitigation Toolkit
- A Reopening School Buildings Risk Assessment Tool
- Interim COVID-19 Transportation Guidance
- Interim COVID-19 Cafeterias and Food Service Guidance
- A COVID-19 Infection Control Checklist for K-12 Schools

COVID-19 Cases to Date	
North Shore (includes Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood, Whitefish Bay - as of June 22 nd , 2020)	
262 Cumulative Confirmed Cases (+10 since 6/19)	
25 active cases being managed and monitored (+0)	
222 cases resolved - people have recovered and been removed from isolation by NSHD (+10)	
14 deaths (+0)	
1 transfer out of our jurisdiction (+0)	
5,518 contacts and/or suspect cases we have triaged and processed	
Milwaukee County (as of June 22 nd , 2020)	
10,355 Cumulative Confirmed Cases (+88)	
371 deaths (+0)	
Wisconsin (as of June 22 nd , 2020)	
25,068 Cumulative Confirmed Cases (+249)	
466,634 People with Negative Results (+6,300)	
745 deaths (+1)	
Gating Criteria (last updated June 22 nd , 2020) Source: MKE County Office of Emergency Management Dashboard under "Key Indicators" tab – updated every Mon. & Thurs. at 12 p.m. "Cases" moved from green to yellow.

A safe return to youth sports: The Wisconsin Interscholastic Athletic Association (WIAA) has released guidance to help children return to organized athletics this summer. Similar to the North Shore's phased reopening plan, the WIAA guidance slowly ramps up participation in athletics to maintain the safety and health of all those involved. It is great to hear sports will be returning this summer, but things will look a little different:

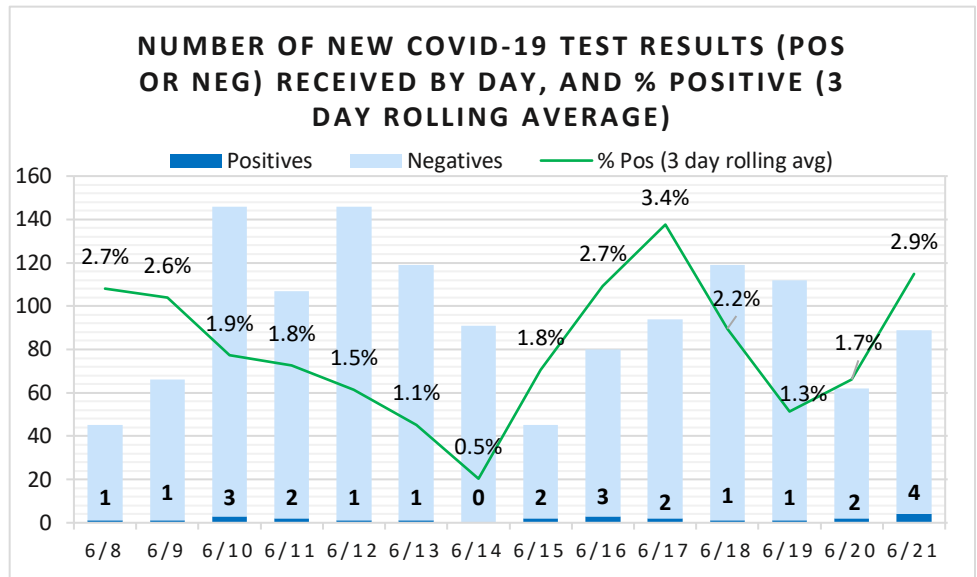

- Social distancing will apply—initially, most athletic activities will consist of individual skill work and conditioning to allow for social distancing between athletes.
- Masks are encouraged—please use caution if you choose to wear a mask while exercising. Monitor for trouble breathing, dizziness, and confusion.
- Players and coaches will be screened prior to every activity. DO NOT participate if you have:
 - Been in contact with anyone positive for COVID-19.
 - A temperature greater than 100.4F.
 - Any symptoms of COVID-19. Even the slightest feelings of illness could be a sign of COVID-19. If you are experiencing symptoms, get tested before returning to play.

You can read the guidance in detail by visiting the WIAA's website. You can also access the link to the guidance [HERE](#).

Do you have questions about COVID-19? Wondering about antibody testing? Want to know how you can safely enjoy your summer to the fullest? Check out [COVID-19 Wisconsin Connect \(CWC\)](#), either online or on your smartphone, to find your answers. CWC was created by experts in Wisconsin with the community in mind. The goal of CWC is to provide up-to-date, factual answers and information about COVID-19. It also offers resources you might find helpful if you are feeling lonely, sad, or stressed. Download the app or visit the website today.

This graph displays the total number of positive and negative test results received per day in the North Shore, as well as the percent of test results that were positive (3 day rolling average). A total of approximately 5,235 COVID-19 tests have been conducted in the North Shore as of 2:00 p.m. on June 22nd. With a population of approximately 65,000 in the North Shore, this indicates that 8.1% of the North Shore population has been tested at this time.

This is a rapidly evolving situation and we encourage you to frequently monitor the [DHS website for updates](#), as well as the [NSHD website](#). Additional information on COVID-19 can be found on the [CDC website](#).
