FDA Warns Consumers About Hand Sanitizer Packaged in Food and Drink Containers: [FDA WARNING](#) - READ LABELS CAREFULLY! Do not buy hand sanitizers for children that look to be consumable or have food scents.

FDA Warns Consumers About Hand Sanitizer Packaged in Food and Drink Containers

The FDA has discovered that some hand sanitizers are being packaged in beer cans, children's food pouches, water bottles, juice bottles and vodka bottles. Additionally, the FDA has found hand sanitizers that contain food flavors, such as chocolate or raspberry.

National Blood Donation Week: The United States is currently in a blood shortage due to COVID-19 originally halting blood drives. Now, donation centers have adapted to make the blood donation process safer for donors and workers. Donate blood with Versiti and they will perform a COVID-19 antibody test as part of their standard testing. [Find a Versiti location](#). The Red Cross is also hosting blood drives in the MKE area: [Red Cross Blood Drives](#).

The CDC is working to better understand how COVID-19 may impact women during pregnancy. Based on what is known at this time, pregnant women may be at an increased risk for severe illness, but additional research is in progress to learn more. Check out studies that have been done and learn more about COVID-19 and pregnancy: [Click Here](#)
