

# North Shore Health Department Public Briefing

September 28<sup>th</sup>, 2020 as of 4:30 p.m.

## COVID-19

### EVERYDAY PREVENTIVE MEASURES

- Practice social distancing by staying at least 6 feet away from other people whenever possible.
- Stay at home as much as possible. Cancel events and avoid groups.
- Keep your circle of contacts small. Try to not be in physical contact with more than five people in total.
- Avoid close contact with people who are sick.
- Stay home when you are sick and call your doctor before going in for medical care.
- Wash your hands regularly for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol.
- Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Clean frequently touched surfaces and objects daily (e.g., tables, counter tops, light switches, doorknobs, and cabinet handles). See CDC's recommendations for household cleaning and disinfection.

Your actions will keep people safe and make sure health care providers can keep up with demand.
